Finding an inner state where you can receive from the herd

Build your inner capacity to receive from the herd so you can support the client in the movement that is needed.

Our inner position & bias in regard to time

Which are we more connected to, past, now, planned future or emerging future? It is useful to know as a facilitator as it can influence our facilitation.

1.00pm **Lunch**

2.00pm **Exploring Different Facilitation Approaches - Sarah Vivian**

While we are all working with the heart and soul of the horse we may have been trained by different organisations. This can mean that we abide by a slightly different ethos and belief system when facilitating.

In this session we are going to be sharing those systems and examining where they connect, and looking at where they differ. This will be a hands on session of facilitation, observation and reflection where we share best practise and our love of what we do. A space for learning and discussion.

3.45pm **Summary, close & feedback**

4.30pm **Finish, home.**
